**To:** House Corporations Committee  
**Subject:** testimony in support of H-7015 as drafted

I have reviewed H-7015 and believe it should be passed in its current form without any amendments. I am a registered electrical apprentice in the State of Rhode Island. I rely on this work to make a living, keep a roof over my head and feed my family. The national electrical code NEC states in article 690.4 (C) Qualified Personnel: the installation of equipment, associated wiring and interconnections shall be preformed only by qualified persons. Article 100 defines a Qualified Person as one who has skills and knowledge related to the construction and operation of the electrical equipment and installations and has received safety training to recognize and avoid the hazards involved.
