To Whom it may concern,

I am writing to you in support of house bill H-7015. I support this bill being passed **without** amendments. I am a licensed master electrician in the state of Rhode Island. I have worked as an electrician for close to 20 years. It is important to have a licensed trade professional do electrical work. Electricity is dangerous. We can not see it. Improper installation can potentially kill humans. It's important that a trained licensed professional is required to do electrical installations.

Thank you for your time
