Subject: testimony in support of H-7015 as drafted

To whom this may concern,

I am a licensed master electrician in the state of Rhode Island for 18 years. I have reviewed H-7015 and it should be passed in its current form without amendments. This trade is and can be very dangerous when someone is not properly trained in this field of work. The Department of Labor, the Board of Examiners of Electricians, and the Chief Licensing Investigator as with every investigator before him understand and accept this classification. I ask you to do the same. Thank you for your time.
