**To:** House Corporations Committee  
**Subject:** Support the KCPA and reverse the Ban

Dear Members of the House or To Whom This May Concern,

I've attempted to end my life due to a medically unmanaged severe pain condition called Complex Regional Pain Syndrome aka Reflex Sympathetic Dystrophy and referred to as "the suicide disease."

Please support product safety regulations with the Kratom Consumer Protection Act instead of banning and criminalizing Kratom.

Kratom offers me a life preserver each day, and it's imperative it remains an option to manage multiple health conditions that include incurable neuro-inflammatory and autoimmune disorders with chronic intractable pain. I rely on it as I would a life raft or vest that might keep me from drowning.

My story is here-

Kratom and Me
