

April 1, 2025 Hearing: **H-5816 - FOR**

The Honorable Joseph Soloman, Chair, and Distinguished Members of the House Corporations Committee:

I'm writing in **support** of H5816 because the world is at a critical juncture where irreversible damage will be done if we don't gain more control over carbon emissions. I feel it crucial for our planet that we use all tools at our disposal to reduce carbon emissions. Wind power is one tool to address that.

This bill would also give priority in hiring to local members of disadvantaged groups which I support so long as they have sufficient training and enough experience or are provided sufficient training to perform the work skillfully.

Thank you for your consideration.

Sincerely,

Mary Chace
