Subject: Support for H-5816

To Whom It May Concern,

I, Ryan Ludwig, a resident of 45 Woodbine Street in Providence, RI, am testifying in support of Bill H-5816 in favor of expanding our offshore wind.

I have long been a proponent of supporting and building a resilient local clean energy supply. It is a critical step toward reaching the just energy transition we need.

While no technology is without its faults, offshore wind power and this bill are an important and necessary step in cutting pollution, reducing fossil fuel dependence, and creating local jobs.

For a resilient future for all of us in RI, I strongly urge you to support and pass this bill.

Thank you for your consideration and your service in building a better RI future.

Sincerely,

Ryan Ludwig
