**Subject:** H777 Strongly Agree - Fairness in Women's sports

I cannot believe that there is any discussion as to the difference between a man and a woman or that there is even the possibility that men could compete in women's sport.

My generation fought for Title IX to ensure that women had equal representation and equal potential to sports and scholarships.

Because of a few frantic people and ideas, women's rights are being trampled upon.

This legislation does not go far enough to outline the differences between a man and a woman - that is very basic – XX and XY – should never compete in school sports
