Subject: ROBERT CHIARADIO - MA CASE STUDY

Chairman McNamara and members of the committee:

My background is that of an intercollegiate football player at Brown from 1980-83. I am very familiar with female athletics also, as many of my friends were female swimmers, hockey players, and softball players. I offer, I think, unique perspective on the matters I discussed today. I also coached both middle school and high school girls.

As per my testimony this afternoon on H7727, I am including a Massachusetts case study on the damage caused by trans inclusion in female athletics in that state. I hope you all take 15 minutes to read this.

Also, my testimony had to do with fairness and safety of biological girls only. In no way do I mean to exclude those who are confused with their sex from participating in interscholastic or intercollegiate athletics in Rhode Island .

I would welcome any opportunity to discuss the merits of this bill and my testimony with you further.

Attached in an email to follow is my written testimony in support of H7781, which I did not have time to include today.

Please contact me should any of you choose to have any dialogue on either of these bills.
