

Testimony in support of H7357: High Heat Waste Facility Act

Barbara Walsh. 62 Frederick Street, Warwick, RI 02888

Date of Hearing: February 29, 2024

To Chair Bennett and the honorable Members of the House Environment and Natural
Resources Committee:

This technology is quite suspect. Rhode Islanders have been adamant in their opposition to this technology for several years. Given you have heard all the reasons to prohibit this methodology, I shall simply ask that you support this bill. Please be proactive in stopping future problems resulting from these companies.
