**To:** House Environment and Natural Resources Committee  
**Subject:** Testimony in Support of HB7617

Dear Environment and Natural Resources Committee members:

I hope I'm not too late to urge you to support and vote for HB7617, the building decarbonization act. This bill would add a critical missing piece to our state's efforts to meet the Act on Climate net-zero by 2050 goal. This bill is thoughtfully planned with phased-in electrification from clean energy sources for large buildings in RI, and I respectfully urge you to pass it for the good of our state and our planet.

Thank you—

Kara Provost
