Subject: In support of H7617: Building Decarbonization Act (from Olivia Krommes, Pawtucket resident)

Dear Chair Bennett and Committee Members,

I'm writing to express my strong support for H7617: the Building Decarbonization Act. I was very surprised to learn that RI currently has no plan to reduce building emissions! Given that building emissions come to almost 30% of our total state emissions, I hope you make this bill a top priority this session so that we can do our best to meet the Act on Climate mandates.

Thank you for your consideration,

Olivia Krommes
