Subject: House Bill no. 7731 - Committee to Study Climate Change Impacts

Dear Chair Bennett, First Vice Chair Phillips, Second Vice Chair Carson, and Members of the Environment and Natural Resources Committee,

I have written at this time to provide you with my comments regarding House Bill 7731 to create a committee to study climate change impacts.

In short, I support this bill. This would help us to track and come up with, hopefully, useful recommendations to address the impacts from climate changes and to keep us on track relative to the goals of the Act on Climate legislation.

Therefore, I urge you to vote in favor of this bill.

Sincerely,

David A. Brunetti
