Subject: Support H-7617

I am Mary Worobec, resident of North Kingstown, RI and am IN FAVOR of the Building Decarbonization Act H-7617. Rhode Island is not currently reaching our mandated target for this very significant need to reduce emissions of our buildings. We are already seeing severe repercussions of climate change in North Kingstown with wildfires, flooding preventing access to Wickford impossible for several days of the year, riverine flooding of homes, and erosion of beaches. We MUST ACT NOW TO REDUCE OUR EMISSIONS.

PLEASE PASS H7617 BUILDING DECARBONIZATION ACT!

-Mary Worobec
