

H5607 IN OPPOSITION Michelle Komar

Committee Hearing March 20, 2025

Representative Bennett, Chair and members of the House Committee on the Environment and Natural Resources,

I am opposed to H5607 because it defines forestry as agriculture. Forestry/trees are not a crop. If the bill intent is to include tree farms, then the bill should specifically express this and delete "forestry" in the bill.

I respectfully urge the Committee to not to pass H5607.

Thank you.

Michelle Komar
