Re: Support for H-8050; An act authorizing the city of Providence to issue not to exceed \$400,000,00.00 for the purpose of school construction.

Dear Chair Abney,

BuildRI is a domestic non-profit trade association comprised of four (4) contractor associations (the Labor Relations Division of the RI Chapter of the Associated General Contractors, the New England Mechanical Contractors' Ass'n, the RI Mason Contractors' Ass'n, and the RI and Southeast MA Chapter of the National Electrical Contractors' Ass'n), and seventeen (17) Local Trade Unions that representing an approximately 10,000 local tradesmen and women.

On behalf of our organization, I write in SUPPORT of the above referred to legislation for the reasons that follow.

House bill 8050, sponsored by Representative Biah, is necessary to continue Rhode Island's momentum with rebuilding our aging and crumbling school facility infrastructure. As Rhode Island looks to better our students' learning experience, it needs to start with how the classroom and the school facilities are constructed: cleanliness, good repair, and energy efficiency are not mere details. Efficient buildings are less expensive to run and maintain, and nationally recognized studies constantly provide evidence that better conditions of school facilities lead to better student attendance, test scores, and the even overall health of the student. When our students know we value education, they do, too.

Thank you for your attention to this correspondence. Please contact the undersigned if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads 'Gregory A. Mancini'.

Gregory A. Mancini
Executive Director/General Counsel
