Attn: Laura Honis

Laura,

I would like to thank you for maintaining the Large Volume Pick-Up program for contractors like us. Being a large scale painting contractor makes it very difficult to dispose of paint unwanted by clients after the completion of a project. With your Large Volume Pick-Up program, it makes the process seamless for us and we are able to recycle all of the unwanted material through your program. Without this program, I feel that Contractors like us would not be able to effectively recycle this material.

Sincerely,

Keith A Beck
Vice President
