Chair, House Finance Committee
Rhode Island State House
Providence RI 02908

Re: The Nature Conservancy testimony in Support of DEM FY 2026 Budget.

Dear Chair Abney,

The Nature Conservancy is grateful for the opportunity to testify in strong support of the Department of Environmental Management's FY 2026 budget.

The Nature Conservancy is a global organization dedicated to conserving the lands and waters on which all life depends. Here in Rhode Island, The Nature Conservancy protects more than 14,000 acres of land and has partnered on the permanent conservation of more than 35,000 acres of land. We do much of our work to protect and restore our natural environment in partnership – including with State agencies such as the Department of Environmental Management.

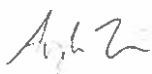

The Nature Conservancy recognizes that DEM is tasked with the tremendous responsibility of protecting Rhode Island's natural assets, including lands, waterways, beaches, ports, farms, and more. This work is essential to maintaining the environmental, economic, and social well-being of the state. We are strongly supportive of a budget that provides DEM with the funding they need to fully manage these resources.

As the agency that chairs the Executive Climate Change Coordinating Council, DEM also plays a vital role in the State's effective implementation of Act on Climate. The agency creates the state's Climate Action Strategies and does inventories of greenhouse gas emissions to ensure that emissions reductions mandates are met.

We applaud the general assembly for passing many environmental regulations in the past few years and acknowledge that DEM requires funding and staff to implement those laws. Over the last 5 years, the budget has provided additional capacity to RIDEM, allowing the agency to make significant progress on the state's forestry, climate, water and air quality, and coastal management goals. We are grateful that the FY2026 budget preserves that progress and provides resources for RIDEM to continue the critical work that is being done. A strong, fully-funded DEM is essential to protect the natural resources of our state – as well as ensure that our economy runs smoothly and in line with our environmental laws and regulations.

We urge the Finance Committee to support the DEM Budget to continue your critical leadership in protecting our irreplaceable natural assets which contribute every day to our quality of life and our economic strength.

Sincerely,

Angela Tuoni
The Nature Conservancy
