Subject: House Bill 8237

Dear Representative Fogarty,

I am writing to you to please ask for your support in passing House Bill 8237. You may recall that I work as a nurse anesthetist at South County Hospital. Recently Lifespan has begun to train Nurse Practitioners to administer the powerful anesthetic Propofol to patients undergoing elective GI procedures. I have great respect for NPs however this is not within their skillset. They are not adequately trained to deal with a patient who stops breathing because of this medication. Please support our bill which prohibits the NPs from acting in this dangerous situation. Please feel free to contact me if you have any questions. Thanks Kathy I hope to see you around the neighborhood soon!!

Sincerely,

Adam Durant APRN CRNA
