**Subject:** House Bill No. 8237

Mr Sepe,

As the President of the Rhode Island Association of Oral and Maxillofacial Surgeons, I would like to express our support of House Bill No. 8237. We are in agreement that the independent administration of anesthesia should be reserved to those with proper training to administer anesthetic medications. In regards to the nursing profession, only CRNA's have displayed the rigorous training required to provide safe independent anesthesia.
