Dear Chairwoman Donovan and the Committee of Health and Human Services,

I would like to extend my sincere gratitude for the opportunity to voice my opposition to Bill No. 8296 "MEDICAL SPA SAFETY ACT". Your willingness to listen to diverse perspectives is a testament to the democratic process and your commitment to serving our community's best interests.

As I expressed during the hearing, I have significant concerns about the potential implications of losing autonomy as a Nurse Practitioner. We are more than qualified with our education and training to be a medical director. The Medical Spa community is very strong here in Rhode Island. We take pride in our businesses and are very passionate about the services we provide. We strive for best practices and strong health safety measures. Nurse Practitioners are more than willing to work together with the Dermatologist to put a plan in place. The system as a whole will benefit from more structured certification to ensure that all providers doing medical spa treatments are following best practice.

Thank you once again for your time, attention, and dedication to public service. I look forward to continuing to engage with you on this matter in the future.

With warm regards,
Brittany Giusti Iafrati
