Subject: Strong Support for Bill H-5351

To Whom It May Concern,

My name is Lexi Revis, and I am a registered nurse licensed in both Rhode Island and Massachusetts. I have lived in Rhode Island my entire life, and completed my education in Massachusetts. I am currently working toward my Master's degree to become a Family Nurse Practitioner. Over the past several years, I've had the privilege of working in two Med Spas here in Rhode Island, and I am now employed at Skin Society in Cranston, RI.

Throughout my career, I've devoted myself to building a deep understanding of facial anatomy, aesthetic products, and advanced treatment techniques. My role as an aesthetic nurse injector has truly transformed my life, and I find immense fulfillment in helping my clients achieve their aesthetic goals. The ability to build lasting relationships with patients and see the tangible difference I make in their lives is something I'm deeply passionate about.

As a nurse, my commitment to patient safety, education, and compassionate care has always been my foremost priority. We are the most trusted profession for a reason. Nurses dedicate themselves to continuous learning, ensuring that our skills and knowledge are consistently in line with evidence-based practices and up-to-date protocols. Despite the challenges, I am currently pausing my practice to pursue further education in this specialty, knowing how important it is to keep advancing and staying current.

I am writing today to strongly support Bill H-5351. If this bill is denied, it will not only impact my career but will also have a devastating ripple effect on many others. Nurses like myself, who have dedicated years to perfecting their craft, will lose the opportunity to continue doing the work we love. The patients who have come to trust and depend on us will be left without their trusted providers, and businesses that support local families will be forced to close their doors.

Bill H-5351 represents more than just the continuation of our profession; it is our lifeline. If this bill does not pass, I will be faced with the loss of everything I've worked so hard for, including the career that has brought me immeasurable joy and purpose.

I ask for your support of Bill H-5351. Stand with your nurses, as we have always stood with you.

Sincerely,

Lexi Revis BSN, RN
