My name is Lisa Rowe-Beddoe and I live in Little Compton, RI. I am writing to you today about bill H6088 which allows a certified foot care nurse or a certified foot care specialist to provide certain at-home foot care, including routine foot and nail care including nail clipping. I support this bill because I look after my 91 year old mother, who has had Parkinson's for 30 years and who is rarely able to leave the house at this point. We depend on home visits for most of her care, including her foot care which we need to have every 6-8 weeks. Up until last year we had an excellent certified foot care nurse, who my mother had a wonderful relationship with, coming every 2 months to do her feet. my mother has some fungal issues so family members are not equipped to do her feet, we need an outside professional. We as a family, support this bill whole heartedly.

Thank you for your time and attention to this matter.
