Re: Testimony in support of H7798

Dear Chairman Craven and members of the committee,

We write in support of Representative Dawson's H7798 which will update the stalking statute to include harassing another person by following them and using an electronic device to record them in public or private.

For 48 years, Sojourner House, a non-profit based in Providence but now providing services across the state, has served thousands of victims and survivors of domestic abuse, sexual violence, and human trafficking. We offer wraparound services such as support groups, emergency shelter, transitional and permanent supportive housing, sexual health advocacy, and emotional support. In recent years we have become an affordable housing developer as well because we recognize that securing permanent supportive housing is the most effective way for victims and survivors to transition out of very dangerous situations and into safety.

Almost 70% of our clients are people of color; 85% of our clients have children under 18 with them; and over 95% of our clients are low or extremely low income.

Sadly, the need for our services is growing. Over the past 9 months, we've helped 500 people at our 5 different housing clinics. Our 12 shelter rooms are nearly always full. Over the last 90 days, we had space on 10 nights for one person (or a parent and child) and on 5 nights for two different adults in different locations.

Stalking is a serious offense that is often one of many intimidation tactics used by offenders. With the prevalence of cell phones, perpetrators often record their victims and use it to harass them. This bill will ensure that this is another actionable offense that law enforcement has in their tool box to counter harassment. We thank Representative Dawson for introducing this legislation and urge you to pass it.
