Dear Speaker Shekarchi,

I have concerns over House Bill 7373 which is currently in Committee.

I urge you to vote No on this Bill as it is currently written.

Firearms safety is a very important matter of personal responsibility and all aspects need to be addressed in such a bill to adequately protect the rights of an individual depending upon their circumstances.

Thank your time and for all that you do for our State.

Sincerely,
Joseph A. Chrostowski,
