I support this bill as an RN licensed in RI. I would like to see this end of life option in RI. I have cared for several family members who suffered needlessly and terribly from terminal illnesses, especially with dementia. I would not want that ever for myself or those caring for me. There is no dignity in these circumstances, even when you try to have the best care and advocacy. It's simply a devastating existence.

Thank you for the opportunity to share my view.

Sincerely,

Sharyn McAllister Caldwell, RN
