Subject: **Support for Weapons Regulation, ESPECIALLY H5436**

My RI-raised daughter is married to a dual British/American citizen. They live in London. Their main reason for NOT moving back to the U.S. with their newborn son is their fear that here in this country, he will be too much at risk of being killed in a mass shooting, most likely in school.

Please do all you can to advance ALL of the current bills imposing reasonable weapons regulations:

**H5436 - assault weapons ban**

H5443 - voluntary restrictions for people at risk of self-harm

H5651 - include juvenile records in background checks

H5652 - no firearms for hate crime offenders

H5890 - firearms only for age 18+

H5891 - no firearms for convicted felons

Sincerely,

Georgine Maniscalchi Edwards
