Flag Status: Completed

I'm writing this morning to voice my opposition to the following bills:
H5436, H5443, H5651, H5652, H5654, H5889, H5890, H5891

As a single female, this bill would cripple my ability to carry any currently legally owned pistols, which are some of the most popular self defense pistols in use today. I have been a victim of 2 home invasions in the past 25 years and I'm appalled that these poorly written bills would even be considered. They are very clearly written by people who have little to no knowledge about firearms or how these bills will effect legal owners. These bills will do nothing for public safety but will only make criminals out of current law abiding citizens such as myself. My family fought for our rights protected by our 2nd Ammendment since before this nation was founded and as a female in this state I am opposed to alm of these bills.

Thank you, Kendra Furman
