

H-5436

Good morning, Senators, and Representatives!

Steve Cournoyer of South Kingstown here writing you about the proposed "Assault Weapons Ban," a pair of House and Senate bills (S359 and H5436) intended to CONVERT EVERY LAW-ABIDING FIREARMS OWNER into a FELON!!! The proposed ban and registration fee is unconstitutional both under the US and State Constitutions! And the "registration fee"? Just a sneaky way for funding gun control groups under the "Gun Violence" flag. Which makes these Bills a "false flag" operation and you know it. The State is saying, "You will be forced to buy the shovel to dig the grave for your 2Ammendment Rights." The phrase "blind extortion" fits these Bills nicely. But it is not nice.... it is a sneaky, underhanded deception on the citizens of this State to fund a specific Progressive agenda.... nothing more.

I am a life-long firearms owner/collector, target shooter, have CCW permits covering forty states, and FFL holder for collecting Curios and Relics. I am a lifelong RI native, husband, father, and taxpayer. I vote in every election and watch how you vote! I do not support these Bills and ask you not to either.
