Reference Bill 5362
I am Pro

Dear Honorable Members,

I am writing today in favor of Bill 5362, which would allow individuals serving lengthy sentences reconsideration of that sentence.

Is there any better inspiration to said individuals to better, rehabilitate, initiate change or address any underlying mental issues? In an effort to truly make our correction system rehabilitational, truly rehabilitational this bill makes the reward for attempting and succeeding this the consideration of freedom and to become a productive member of society and potentially an example and inspiration to others. page 1

In addition to the interest of human condition we must look at the bottom line.

~~On~~ one hand we come here the inmate with little hope or motivation costing taxpayers tens of thousands of dollars annually we can ~~potentially~~ potentially add a production member of society to our tax rolls.

I planned on testifying tonight so please pardon this hastily written testimony as I can not stay this evening.

Thank you for your consideration.

Donald L. King III
