

Dear House Municipal Government and Housing Committee Members,

I am in favor of Bill H 7060. I have lived in Tiverton with my family for over 50 years. The Seapowet area holds so many happy cherished memories of my childhood. I was fortunate enough to build my home here over 20 years ago.

I never imagined a part of Seapowet could be taken away for private commercial use. This area has always offered so many recreational activities to all. Many folks just choose to park at the beach and take in the serenity of it all. Seapowet has often been referred to as "God's Country."

The shoreline of Seapowet remains one of the last recreational areas that allows free access for all. Please support this bill to keep the peace and tranquility of this area. Once it is taken away, we all lose.

Thank you.

Barbara Milotte

801 Seapowet Ave.
