

Dear House Municipal Government and Housing Committee Members

As a local resident for over 25 years of the pristine Seapowet Cove and Wildlife area I urge this Bill H7060 be passed to save and protect the natural habitat and public use of Seapowet Marsh and the Sakonnet River. People from RI, Ma, family friends and neighbors all enjoy fishing, swimming, kayaking there.

It is extremely important to protect the few remaining accessible areas left in RI.
Thank you for your consideration in this matter.
