

FROM: Deb Olisky 365 Wandsworth Street Narragansett, RI 02882
SUBJECT: Pending House Bill H7324 – Zoning Ordinances

Please preserve the quality of life and families, neighborhood preservation and infrastructure improvements in Narragansett by opposing the passage of House Bill H7324, which would strip Floor Area Ratio (FAR) from Section 45-24-33 of RI General Laws.

Narragansett has been inundated with student and summer rentals and has 21% of all short-term rentals in RI (978).

This causes overuse and over taxing of sewer and water systems.

Many other cities and towns in RI have similar problems, and rural communities that do not have municipal sewer and water systems would likely face environmental difficulties if you pass this bill.

Please vote to reject House Bill H7324.

Sincerely,
