

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing to URI students as has been done for decades.

I have one child that graduated from URI and shared housing with 4 girls two years in a row. Now that my next child attends URI, housing is much more expensive

And harder to find.

Also, when people graduate from college and plan to live on their own, sharing an apartment/house is needed. Recent college grads leave the state for job opportunities because they cannot make enough money to afford to live here. Try to find an affordable apartment in the Providence or Newport area. Young adults need to share reasonable housing with roommates. I would like to have at least one child stay in RI.
