

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades. I have had students knock on my door asking if I know of any available rentals. Not only that but the rents have gone up substantially to cover the landlords costs. this puts more of a burden on parents and students. In Narragansett the zoning board created this problem by allowing (8) bedroom houses to be built in residential neighborhoods. Most rentals are 4 bedroom we have two rentals around us and we do not even know what they look like they are so quiet.
