

With regard to House Bill 7382 which would redefine "household" ...

I am strongly opposed to this bill. Due to its' location, the Town of Narragansett is susceptible to outside real estate investors who have turned residential neighborhoods into student dormitories and summer boarding houses, with little regard for the negative impact on full time residents. As a result, the Town of Narragansett has recently enacted local ordinances which limit occupancy to reasonable levels. These ordinances comply with the current definition of 'household' but would not comply with the proposed revision. It has taken years to bring the town back to a balance of full time residents and transients...please do not take that away from us. Let the town voters decide their own fate.

Sincerely,

John G Hanley

Narragansett
