

To All: I strongly support Bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades.

Our local businesses rely on these URI students for much needed income throughout the winter time until the summer vacation people arrive.

I have worked hard on my life saved my money and invested in a five bedroom rental property in Eastwood. Look in Narragansett six years ago now the town council is limited to three students which is three bedrooms losing much needed income of the other two I pay taxes on a five bedroom and Zone for a five bedroom And I believe it is unconstitutional what this town council is getting away with by limiting this. What are they gonna do next say that I can't have a cat in my house next year In all seriousness, this town council is going to turn Narragansett into a ghost town, and they should not be allowed to limit students in anyway the occupancy should be based on month. The Towne building inspector issued a permit, for in my case I have a five bedroom, and I have a permit for a five bedroom, so I should be able to rent to five college students. Thank you for all your efforts to try and help us in this endeavor. Sincerely, John H. Hartley, 22 Knowlesway Narragansett,RI 02882
