

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades.

My daughter attends URI and there is a huge problem with finding affordable housing as they already have a housing issue on campus to accommodate everyone and there is no option to live on campus for junior and senior years.

By limiting the number of students who can live in the house, it puts an even larger financial strain on the parents and students. Many of these students are well behaved, responsible young adults who are there to learn and obtain their degree.

Thank you,
Kristen Yafrate
