

Good Evening

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades.

I feel that our local government reacts to emotions and not facts regarding their numerous attempts to infringe on personal property rights. They also take a negative stance on the local URI student population which provides a great influx of business and participation in local civic groups that should be celebrated, not discouraged.

Thank you for your consideration.
