

I was raised in Narragansett. My mother was a school teacher in the town; actually she was the Narragansett reading specialist. The middle school dedicated the library in her name at her passing. I went to University Rhode Island and currently own property in Narragansett, as well as in other towns. I am asking that you support house bill h 7382 for the sake of the town's business and tourism and for the sake of friendly community and available housing.

Thank you

Peter Aiello
