

Dear Sir or Madam,

Please, please, please support House Bill H7382. My daughter, Ashley Bruno, is a University of Rhode Island student who does not have on campus housing. She works at least 10 hours a week and is on the dean's list. The cost of housing is expensive and would be greatly reduced if she could rent a 5 bedroom house and split the cost 5 ways. She calls me and says after paying rent, electric, house gas, internet, and car gas she has no money left for food. Please support House Bill H7382.

Sincerely,

Tamara Albrecht
