

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades.

It's a shame that housing inventory goes underutilized when there such strong demand, but restricted based on faulty agreements. We have invested heavily in our property making it feel like a home. When students feel like it's "a home away from a home" they treat with respect and embrace the neighborhood. We have rented since 2014 with no major incidents and have had multiple repeat students who care for the home with respect.

Please vote to support bill H7382.

Thank you!
