Marty was awesome! Attention to safety first and a welcoming smile. These guys do a great job at keeping the mopeds/scooters in top working order. Conscientious ambassadors to the preservation of the island, it's locals and we tourists enjoying our time 🌟🌟🌟🌟🌟

Definitely have the best prices on the island! I rented a bike here once and moped here another time. I was happy with my rentals! Only thing I didn't like was that at full speed up a hill moped wouldn't go over 14mph. Maybe time to upgrade?

Absolutely amazing experience with their moped rentals on 8/23/23. Owner is exceptionally knowledgeable and kind. The staff were also exceptional. The process was easy, mopeds were beautiful and ran with no issues. Highly recommended!

The whole Island Moped & Bike crew was awesome! We rented moped at their place for 4 hrs and drove around the whole island, the moped was cool and without any problems. People who were taking care of us were helpful and patient. Definitely would recommend to everybody when you come to Block Island!

I highly recommend for scooter rentals (or bikes) . All staff was pleasant and knowledgeable. They take Time to show you how to operate and make sure you can handle scooters. They supply helmets, don't forget to bring your eye protection (sunglasses). Both scooters we rented operated perfect and I would say the best way to see the island. I think it's to hilly for a bicycle in my opinion. One of the employees even recommended a local pub which was amazing!!!

Fast, easy, and they made sure I was able to drive properly before we left. I needed an extra lap or two to get it down fully since it was my first time, but they were friendly and taught me fast. Very reasonable prices, and it was a great time

My boyfriend and I came to Block Island for the first time. And Island Moped & Bikes made our trip even more AMAZING. Their mopeds were so easy to ride and in great condition. Their customer service was excellent. And their price is more affordable than others. I recommend them 100%. We will definitely be back.

Good and fast service. They make sure you know how to drive the moped. It's a little pricy but nice to roam around the island in those mopad.  
Little difficult for the passenger with the basket but we figured a way out.

This place is just opposite to the road when you come out of the ferry...so you don't need to walk much.

Had a great time touring the island on the moped

The price was reasonable. The staff were friendly, informative and flexible.

The moped came with a helmet, was easy to ride, and never had any troubles with it

Highly recommend

We've made the reservation online prior to visit on there website. Took the early bird package for Mopeds. It's located right across the street after you get down at the Block island port. The check-in was smooth. They gave the helmets and ensured we are comfortable with the scooters. Gas is included too. It was wonderful touring the island on scooters. Highly recommend anyone visiting to opt for scooters as the island has hilly terrain and using bikes might be a challenge.

Before arriving at Block Island, I found Island Moped on their website. I was very intrigued by what they had to offer in terms of price and condition. Even better, in person they boasted friendly service, optimized location and great prices. Also, the price was very reasonable compare than other shops. I rented a scooter and traveled safely around Block Island. There has never been a better experience than this. The scooter was rented online and was very convenient to use. I strongly recommend this place to future tourists.

I originally rented a tandem bicycle but after an hour my wife and i realized that we needed something with a motor. I was grateful that Island Moped & Bike allowed me to swap from the tandem bike to a scooter with only needing to top up the price difference.

Such a stressful experience. Came here with 7 friends while visiting Block Island for the day. None of us had moped experience but wanted to try something new on our vacation. Instruction from the staff was rude if you had never done this before. A guy in our group practically got yelled at by an employee who wasn't even training him because he was having trouble with the clutch being sensitive. Our party was frustrated so we decided to get refunded and switch to bike rentals, and the staff luckily didn't make that too difficult. However after the new paperwork was done we could hear the 2 trainers talking about how a stranger learning at the same time as us was "the best of the beginners" and "actually listened to instruction" simply because he got the hang of it very quickly. This was of course annoying to hear. Only some people in our party swapped to bikes, as two of them were so frustrated they decided to walk away entirely. Once we got the bikes it didn't take us long to realize how poorly maintained they were. One bike had gradually deflating tires. My bike seat would not stay up, making the bike ride to the top of the island very uncomfortable. Sometimes the gears would change by themselves.

I was surprised to have such a poor experience here, what with this place being one of the highest rated rental shops on the island. All in all I would avoid this place entirely.

They were very accommodating when we arrived at it was raining. We went shopping first and then went and picked up our mopeds. The refunded some of our money since we didn't have them as long as reserved. Everyone was friendly and helpful.

I really can't bring myself to give this place even one star - only it wouldn't allow me to post unless I did! With the bad attitude and rudeness of the employee we spoke to on a recent trip to Block Island (September 2022) - I'm surprised this place stays in business. Within seconds of inquiring about moped rentals, this guy dismissed all 9 of us claiming we collectively didn't have enough riding experience, even though 3 of us did have experience. There was no offer to teach and/or test our abilities...it was just a flat NO, and a quick dismissal of 9 women out to have fun. Shame on you Island Moped for hiring such a jerk!

**Response from the owner** a year ago

I am sorry and surprised this is happen to your group we have many people that have no experience riding mopeds both women and men if there is a next time, please call 401-466-2700 and ask for the manager and we will make a reservation for your group

A group of 9 women (early 60s) were turned away and not rented to because all of didn't have experience driving a moped. Three had. The website does not mention you need experience. I believe all you need is a drivers license or parental consent. Please update your website. Until then there are lots of other place to rent from.
