

Dear Chair Casey,

I write in opposition to H-8182 sponsored by Rep. Carson.

While I support the extension of the House Study Commission on Short Term Rentals, I believe it is premature to pass other components of the bill. Please allow the Commission to continue its important work and strike a balance between the rights of property owners and any potential impacts they may have on communities. No legislation pertaining to short term rentals should be passed until the Commission has finished its work and presented its findings to those who would vote on the legislation.

Thank you.

Warm Regards,

Ariela Herzog
