

I am writing to OPPOSE H8182 sponsored by Rep. Carson. While I am in support of reasonable regulations with regard to STRs, it is premature to pass any STR related legislation while the State STR Study Commission on STRs continues their work. Bill H8182 has not been reviewed or supported by the Commission and passage of this bill would subvert their important work. For this reason I urge you to OPPOSE this bill.

These laws are ridiculous.

Regards,
Carl Hernas
