House Committee on Municipal Government & Housing

Dear Members of the House Committee on Municipal Government & Housing:

This testimony urges support for bill 2025-H 5953, which would require municipalities to provide shelter for unsheltered individuals at risk of death from weather-related exposure. In a state as resourceful as ours, no one should be left to die on the streets for lack of shelter.

Yours sincerely,

A handwritten signature in black ink that reads "M. P. Nightingale". The signature is written in a cursive, flowing style.

Peter Nightingale  
Emeritus Professor of Physics
