

H-5887

To the members of the RI House Special Legislative Committee,

I am a resident and registered voter here in RI and I am writing to express my strong opposition to changing the name of Victory Day to Peace and Remembrance Day. I am proud of the fact that Rhode Island recognizes the amazing effort by the greatest generation who rallied together to defeat those who would oppress others in the world. Many residents of my town were among those who served, and died, in those battles. Changing the name of the day that is honorably and boldly dedicated to their efforts and sacrifices would be a disservice.
