Dear Committee Members,

I write in support of HB 7329. I see no need for nuclear weapons on our fragile planet. Growing up in the 1950s filled me with fear of a nuclear armageddon, an event we have spent our time since the 50s making more likely.

There is no good reason for the people of Rhode Island to support our own potential demise.

I support HB 7329 and hope you will, too.

Sincerely yours,
