Re: Testimony SUPPORTING House Bill 7565

Dear Chair Shanley and Honorable Committee Members,

Thank you for the opportunity to submit this testimony in support of House Bill 7565.

As a regular participant in our state's Long Term Care Coordinating Council I support House Bill 7565. This bill, if passed, would significantly improve the Council's ability to develop and coordinate state policy concerning all forms of long-term health care for seniors and adults with chronic disabilities and illnesses.

The Long Term Care Coordinating Council is tasked with providing state policymakers with information and recommendations on how our state can best serve our constituents who require significant care for chronic conditions. Statutorily, members are not able to participate remotely. This requirement makes it difficult for members to participate, especially those who are unable to travel to a meeting due to long term care issues of their own. By passing this bill, we can lift that requirement and ensure that representatives of the people the Council is meant to serve are able to fully participate in the meeting.

As structured, the Council requires an in-person meeting of 33 stakeholders from across the state, of which 17 members are needed to form a quorum. Because this is a meeting of a wide variety of stakeholders, including state officials, nonprofit leaders, working healthcare professionals, and consumers of the health services the council oversees, scheduling meetings around a quorum is a challenge, to say the least. In turn, the progress of the Council is sometimes hampered when we are unable to approve minutes or take votes. This bill would bring the quorum requirement of the Council in line with other policy councils managed by the Lieutenant Governor, such the Emergency Management Advisory Council, and allow us to work more effectively.

The small changes proposed in this bill would, if enacted, have a large impact in our state's ability to develop and implement policies that would serve Rhode Island's long term care community. I strongly urge you to recommend passage of House Bill 7565 so that our Council can get to work on their behalf.

Thank you for your time and attention, and for all of your work on behalf of all Rhode Islanders.

Sincerely,

Kathleen Gerard,
ABC-RI
