Bill H8148

Rep. Evan Shanley
Chairman, House Committee on State Government & Elections

To Whom It May Concern,

I have spent summers in RI for almost 70 years. I own property on Narragansette Bay and am deeply committed to keeping it beautiful, safe and healthy for future generations as the previous generations did for us. I believe that this is best accomplished by professionals in the field of oceanography who have spent years studying and preparing for issues concerning our bays and oceans.

This bill will finally make the CRMC a credible organization of professionals who truly understand the ecology of the coastline-RI's most valued resource.

There have clearly been decisions made by the board that favored friends and corporations rather than following the recommendations of the people who deeply understand the complexity of the ecosystem and what is best for all.

Please support this Bill to make sure the coastline stays beautiful and sustainable.
