Subject: Opposition to H5519

We would like to voice our opposition to H5519 as it undermines efforts to move our democracy forward in restoring that our elected leaders should all have received the majority of the vote. We all know from civics class that this is the underlying assumption in democratic representation, and efforts to continue to maintain systems that have proven themselves ineffective at ensuring candidates who have the support of the majority are not the ones elected are rooted in undemocratic principles to retain power and dominance.

Sincerely,
Leah and Keith Creiglow
